

anti-pimple gel

Inflamed pimples are healed quickly through selective drying of the pimples plus an antibacterial effect while soothing the skin.

- Combats pimples, blackheads and skin impurities

Product features:

- Inhibits the growth of acne bacteria with the active ingredient Chloroxylenol combined with the pH value of 5.5
- The moisturizing agents cucumber extract and hydrolyzed silk protect against flaky patches, when the pimple is dried out
- Bisabolol, the active ingredient of camomile soothes irritation
- Soothing and astringent effect with witch hazel
- Panthenol supports the regeneration of the inflamed pores
- Allantoin smoothes rough and scaly skin
- No oils and emulsifiers

Indications:

- Especially developed for direct treatment of inflamed pimples and problem zones
- Dermatologically tested

Content: 10 ml
